

Joyce Beck for Ward 2 Town Council Seat

Dear Neighbor:

I would like you to trust me to represent you on Town Council for the next two (2) years. If you will vote for me in May I will work to restore the Town budget, repair pot holes, remove/replace dead street trees, repair gutters, and to strengthen our Police Department.

Like many of you I have lived here for many years and I have watched the beauty of our Town slip away. Like so many of you, I remember when we were able to put bulky trash out every week and, like you, I remember when we were told we can no longer do that unless we want to pay \$35.00 an item to have Town staff pick up such worn out things as mattresses and washing machines. Like many of you I remember when we had mosquito control, street cleanings and dependable snow removal; we had a Beautification committee and a very active Recreation Council and Crime Watch. I remember when Indian Head Highway was a bright boulevard into our Town.

Its time for a change in representation. Its time to give others an opportunity to run Town affairs. Its time to thank those individuals that have held these jobs for years while they did too little to maintain the beauty, safety and tranquillity of our Town. Its time to replace them and elect others who just might go ahead and fix the budget, repair the potholes and gutters, remove and replace dead trees, and work to restore recreation and crime watch activities for our youth, adults and seniors.

Were you aware that there are opportunities to get Town transportation for our seniors to go to the doctors and grocery store weekly? Or that it really is possible to increase our budget without raising taxes every year? That there are block grant opportunities that would permit us to do something about boarded up houses? The opportunities to become a first rate Town again are limitless. We just need Representatives that know, can find and develop these opportunities. I can do that for us. If I fail, you can vote me out of office in two (2) years and I would invite you to.

YOUR VOTE WILL BE THE DECIDING VOTE. Staying home will mean retaining existing representation. **Please come out and vote for me, Joyce A. Beck, on May 14, 2003.**

Thank you.

Joyce A. Beck
