

Watisha Dixon (Ward 1 Town Council)

March 10, 2010 is a very important day. It is a day that can bring about change. Change for our community. It is a day that voting citizens have the power to put in office the person they feel can do the best job.

I have lived in Forest Heights for the past Five years. I have seen good and bad things, but the most important is our youth. We currently have no recreation center, or after school activities for our youth. We need to encourage and strengthen our youth. Our youth are our future.

On March 10, 2010 vote for me. I will be one of those leaders that you can trust to get the job done.
