

80% of eligible voters still do not have a voice in the future of your Town because they do not vote. Your Municipality is poorly taken care of; we need everyone's participation in the election process. Please come out and vote on Wednesday, May 9, 2007.

- Vision of proactive role in management to restore the Town Administration and create a Model Town.
- Independent and not tied to the current system with respect to all rights of all the residents.
- **Responsible treasury for a financial posture where Audits are always rendered clean opinions. This very important fiscal responsibility is still not evident. This fact coupled with Legislative mismanagement is not helping to maintain a sorely needed functional Municipal Administration. Taxpayers deserve better.**
