

## Statement of Ward II candidate George Edward McDermott Re: upcoming election

To the good citizens of Forest Heights Maryland my intention in submitting my name for nomination for the Council seat in the town's upcoming election representing constituents in Ward 2 was submitted in good faith with the hope and aspiration that I would become the voice of change in our electric council representing citizens interest and the best interest of Forest Heights Maryland a Municipal Corporation governed by We The People for the benefit of our community as a whole. A concept our elected officials seem to have forgotten over the past administrations. It's

But since the signing up as a candidate, I have evaluated my current circumstances and believe it would be in the best interest of our community at this time that I withdraw my name from consideration for the foregoing reasons.

1. As an elected official of the town and its representatives would have to commit certain time and resources in order to do justice to the constituents and the Constitution of this unincorporated township. Which would result in my advocacy on a half of the people of this town against elected officials who abuse the Oval Office.  
The town charter of Forest Heights Maryland is our Constitution and the rule of law the general misconception is that any statute passed by its legislature bearing the appearance of law constitutes the law of the land. The United States Constitution is the supreme law of the land and our town constitution is patterned after such. Note that any statute, to be valid must be in agreement. It is impossible for a law which violates our constitution to be valid. This is distinctly stated as follows.
  - A. All LAW's which are repugnant to our Constitution are null and void. "Mulberry vs. Madison 5 US (2 church) 137, 174, 176, (1803).
  - B. Where rights secured by the Constitution are involved, there can be no rule making or legislation which would abrogate them. Miranda vs. Arizona, 348 US 436 p. 491.
  - C. An unconstitutional act is not law; it confers no rights in poses no duties and affords no protection it creates no office it is a legal contemplation, as an inoperative as though it had never been past . Norton vs. Shelby County 118 US 425P. 442.
2. Our current leadership and past administrations have knowingly violating the respective oath of office by not seeking proper legal advice and oversight of their legislative rule-making capacity creating a perception and culture of corruption within their administrations abrogating the rights and liberties of our citizens. Which is well documented in the United States District Court house in Greenbelt Md. McDermott vs. The Town of Forest Heights Md. Which the town's attorneys have been defending in bad faith.
3. As a citizen journalist. **SECRET JUSTICE NEWS. COM** and also secret **JUSTICE NEWS@ YOU TUBE** I believe I can better serve the community by being the check and balance on our Government and town administration, being an elected official would conflict greatly with my advocacy work on defending the rights and liberties of the broken system of Government and the Judiciary which appears to be disconnected from the plight of victims.
4. I also need to commit more time to my Church which is Forest Heights Baptist Church for we must not forget the natural order that 1 God created- man... 2. Man (that's you) creating our Constitution... 3 are Constitution created our Government... 4 And our Government created corporations etc. purportedly for the benefit of we the people with bylaws and statutory restraints on exceeding their power and authority under color of law.

I now respectfully request that the Town Clerk removed my name from consideration as a candidate for elective office in 2008 election cycle effective May 1 2008. It is my belief that this course of action is in the best interest of the townspeople, a pledge to remain an advocate for our Town Constitution and citizens the rights contained therein.s

As a resident of over 40 years I enjoy living community and demand that those holding office return to the rule of law of pay and respect their respective posts of office to uphold and defend our Constitution and citizens rights. I would urge all citizens to exercise their dominion over government by voting in the upcoming election failure to do so will breed tyranny and corruption of government. "Remember when People acting in the name of government violate ethics, they break the trust with "We The People" the natural result for "We the people" is to pull back power (honor and allegiance). I would now like to endorse Larry Stoner and Cliff Barnes as my community's choice.

Yours in truth

George McDermott
