

## Candidate Biography

Bill Robinson  
5815 Black Hawk Drive  
Forest Hgts. MD 20745  
(301)442-8410

I am seeking an elective office as a member of the Town Council of the Township of Forest Heights thereby giving me the opportunity to continue as an advocate for the improvement of my immediate community. I will utilize my acquired skills and experiences in administrative management, business development, general administration and law enforcement to their fullest potential.

I have lived in Prince Georges's County for thirty-three years. My family has resided in Forest Heights for thirty years. Education: I am a graduate of Prince Georges Community College 1981- Associates Degree in Business and The University of Maryland 1984 - B.A. Business with a minor in Japanese. Work experience: Law Enforcement NIS, Director of Security (Manager on Duty) - Colony South Hotel and Conference Center/ Southern Maryland Hospital Center. Japanese translator. Home Improvement Business Owner/Contractor- Carpenter. Community Service and other Notables: Disaster Preparedness Team- Southern Maryland Hospital 2005, Board of Directors: Huntley Square Condominiums, President 2001-2002, Vice President 2000-2001.

I have attended the last five Town Council meetings because of my concerns regarding the Health and Safety of the Town and its residents. After the first meeting, I realized the true "State of the Town". I would like to encourage all residents to experience the " shock and awe" that I have witnessed. It is my opinion that the taxpayers monies are blatantly mismanaged with the lack of transparency or accountability. Forest Heights does not have a Treasurer. The last auditor hired by the Town (2008) revealed a critical situation. The auditor stated that we need a Treasurer immediately, full or part time with experience, preferably a Certified Public Accountant (CPA). As of today, Feb. 4, 2009, the professional advice has not been heeded. This haphazard behaviour should be a wake-up call to us all. The Health of Forest Heights, "Our Home, Our Investment" needs an immediate restructuring and resuscitation for its survival. Please attend just one meeting, you owe it to yourselves. Then, you too, would see the need to get involved. A milestone was set on January 20, 2009. President Barack Obama, along with the world, has committed itself to " A Change for a Better America"! We must start in our own community. I am committed, I will be accountable, I will employ fiscal responsibility, discretionary spending and finally, work as a vital team member for a "Better...Forest Heights".

**Vote ... Bill Robinson for Town Council- Ward 3 .**
