

Myles Spires
Ward II Candidate
For
Town Council of Forest Heights

Most of you in Ward II are already very familiar with me from the petition drive to oppose the Town Council's efforts to acquire more town debt. For some time now, I have been very vocal in my views concerning the way our town is being managed. Finally, quite a few residents responded by telling me to put up or shut up. Today, I am putting up.

I believe it is not enough to talk about the problems that plague our community. Nor is it enough to criticize a corrupt governing body. Instead, I believe it to be every citizen's duty to ensure that things such as racism, mayoral and town council corruption, and crime are addressed with activism. Therefore, I am now running for the Ward II Town Council seat.

In the past, I have demonstrated my commitment to improving our community and looking out for the best interest of the residents by:

- Organizing the Coalition of Concerned Citizens – a group of residents committed to holding the town government to a high standard of accountability.
- Establishing the Forest Heights Herald Examiner – a town news source dedicated to presenting a full picture and analysis of town government officials actions, progress, and accomplishment.
- Legally challenging the illegal taxation enacted upon the residents of Forest Heights which now has many of us paying \$400 a year more in real property taxes
- Served as Chairman of the Ethics Commission

If elected to the Council, I will continue to pursue my activist role to ensure the proper administration of town business both legislatively and corporately. Our tax money must be spent correctly and our town officials must operate according to the town charter. I will encourage my colleagues to demonstrate our commitment to the ones for whom we work – you the residents and citizens of Forest Heights.

Thank You for your Vote.
